JUNIPER / CLEANING

Service Guide

Fictional demo company | Version 1.0
Effective 22 October 2026

A clean that fits the home

Choose a service

Regular cleaning maintains a lived-in home: accessible surfaces, kitchen counters, bathroom fixtures, vacuuming and mopping. Deep cleaning adds more detailed attention to reachable edges, fittings and built-up everyday dirt. Move-out cleaning is for an empty or mostly empty home, with accessible cupboard interiors and a detailed kitchen and bathroom clean. Choose one, two or three bedrooms in the booking form.

Oven cleaning

An oven clean is an optional add-on for any supported service. Select it in the quote so the extra time is included. The booking form is the current authority for prices and duration; this guide does not create a separate price or promise extra services.

Before a time is confirmed

Choose a preferred time and submit the quote for review. A coordinator checks the full job duration and cleaner availability before confirming. Submitting an enquiry does not reserve a cleaner. All services in this demonstration are fictional; no cleaner will attend.

What the clean includes

Floors and carpets

We vacuum accessible carpets and rugs, then mop suitable hard floors. Carpet shampooing, steam extraction and upholstery treatment are not offered. Please move small belongings from the floor before the visit; cleaners do not move heavy furniture to reach hidden areas.

Our cleaning method

We start with a walkthrough of accessible areas, work from higher reachable surfaces down to lower surfaces, clean the kitchen and bathrooms, and finish with vacuuming and mopping. Separate cloths are used for bathroom and kitchen areas. A final walkthrough checks the agreed rooms; it is not a landlord inspection or a deposit guarantee.

Supplies and equipment

Juniper brings ordinary cleaning products, cloths, a vacuum and a mop for the agreed service. Tell the coordinator about delicate surfaces or a preferred product in advance. We cannot promise every requested product will be suitable, and do not make chemical-free, disinfectant or allergy-safe guarantees.
